

Product stewardship and best use guidelines

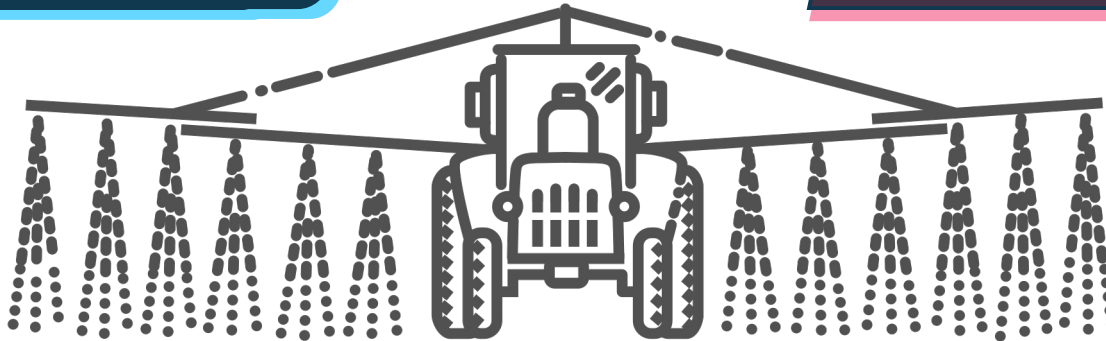

For Jessico Fusion fungicide with Iblon® and Inatreq™ active

JESSICO[®] fusion

Product concentration should not exceed **0.8%**, equivalent to **1.2 L of product in 150 L of water**

Do NOT leave any product or solution in the tank overnight (follow label recommendations)

Do NOT use through pulse width modulation equipped sprayers

Rinse the sprayer tank, pump and lines through at the end of each day's spraying

EPDM, NBR, Blueflex and Teflon are preferred component materials for pump, Ramsay box and anti-drip diaphragms and seals, PUR is the most vulnerable material

Sprayer manufacturer servicing recommendations should be followed and where practical seals and diaphragms should be replaced during winter maintenance

iblon[®]
TECHNOLOGY

Inatreq™ active

Jessico® Fusion contains isoflucypram and fenpicoxamid. Iblon® is the commonly used name of isoflucypram active substance. Inatreq™ active is the commonly used name of fenpicoxamid active substance. Iblon and Jessico are Registered Trademarks of Bayer. Inatreq™ is a Registered Trademark of Corteva Agriscience and its affiliated companies.

PUR = Polyurethane
NBR = Nitrile Butadiene Rubber

Guidance for spray concentrations not exceeding 0.8%

	Water Volume L/ha
